## for THE car guy or gal

### For the Small and Big Block Guy/Gal

Our Ultra Ram EFI Systems deliver outstanding port fuel injection performance with an aggressive looking sheet metal intake manifold. The design of the Ultra Ram intake performs as good as it looks and will support up to 600 horsepower (naturally aspirated). The system comes ready to go out of the box with the injectors and fuel rails installed.

### For the Classic Guy/Gal

If you prefer the restored or classic hot rod look, the Go EFI Classic is for you. You get the performance benefits of modern fuel injection, with the looks of a vintage carburetor (without the flooding, vapor lock and cold start issues). The

Go EFI Classic features our advanced self-tuning fuel metering technology and will support engines rated up to 650hp.

### For the Power Guy/Gal

If things are getting really serious under your hood in regard to four digit horsepower with boost or nitrous, the Go EFI 8 1200hp Power Adder system is up to the task! This bolt-on throttle body features eight high-flow injectors capable of fueling up to 1200hp! This system is made to support serious horsepower and is supplied with our pro-tuning software and features the ability to data-log information!

### For the Everyday Guy/Gal

The Go Street EFI is a ready-to-run system that sticks to the basic functions necessary to get the best performance and economy out of your street and mild performance engine. This throttle body system is economically priced and delivers the benefits of quick starts, smooth idle and self-learning technology to get you from sea level to over the mountains without a hitch. The system easily installs with most ignition systems and fits most intake patterns to replace your old carb.

## for THE car guy or gal

PART NUMBERS: 70001-79614

### For the Dual Quad Guy/Gal

Let everyone know you mean business with a pair of 4-barrels crowned atop your engine! The 2x4 is supplied with two throttle bodies, one with the brains and integral ECU, the other with the brawn. Both bodies feature four injectors and will support up to 625 horsepower (naturally aspirated). Thanks to a multi-bolt pattern, the 2x4 system will bolt onto most intakes including tunnel rams or cross rams. Through the advanced tuning capabilities of the efficient ECU, you'll have your engine red up, idling smooth and making big power in no time!

### For the LS Guy/Gal

The Go Street EFI is a ready-to-run system that sticks to the basic functions necessary to get the best performance and economy out of your street and mild performance engine. This throttle body system is economically priced and delivers the benefits of quick starts, smooth idle and self-learning technology to get you from sea level to over the mountains without a hitch. The system easily installs with most ignition systems and fits most intake patterns to replace your old carb.

PART NUMBERS: 30061, 30062, 30064, 30065

### For the Port Guy/Gal

The Go Port EFI system features eight injectors placed precisely in each intake runner to inject fuel right into the cylinder head port. A sequential batch port fuel design provides excellent throttle response, effective fuel atomization and delivery resulting in terrific throttle response and overall performance. FiTech offers two complete systems; a kit for up to 550 horsepower and a 1050 horsepower kit. Each system is supplied with a new aluminum intake machined and fitted with injectors (36 or 80 lbs), fuel rails, the wiring harness and an 850 cfm throttle body

PART NUMBERS: 37854 & 37858

### For the Three Deuce Guy/Gal

Nothing says muscle like a 6-pack screaming at you when you open the hood, showing off a trio of two-barrels. Keep the muscle car look while upgrading to modern day EFI technology! Check out the Go EFI Tri-Power 600hp system. No special manifold needed for the retro-style 3x2 Go EFI system that will bolt onto most 6-pack manifolds and are compatible with factory air intake systems. Requiring minimum effort to install while at the same time designed to maximize airflow and inlet velocity. This is a ready-to-run system that strays away from the programmable features and sticks to the basic functions necessary your street or mild performance engine needs.

## Stocking Stuffers

***A little something for the stocking***

### Handheld Tuner Mount

Looking for a safe, simple way to mount your FiTech Color Touchscreen Tuner? The new Premium Magnetic Handheld Mount provides an easy and effective way to secure the touchscreen controller.

The Magnetic Mount allows you to mount the touchscreen nearly anywhere in your car. A sturdy, adjustable stand is fit with two extremely strong magnets to firmly secure the Handheld through vibrations, shocks, bumps, and even during spirited track laps!

### Regulators

The new Go Fuel Regulators allow you to set the fuel pressure precisely where your EFI system and engine require. Both models can be adjusted from 30 - 70 psi. Our Tight Fit regulators will support up to 1,000 horsepower while the High Horsepower model will support 2,000 HP. Crafted from billet aluminum, the regulators feature -6 ORB ports along a vacuum/boost port and will accept a gauge. Two models are available; a compact unit with a single output as well as a larger, dual output model.

### FiTech, Go Spark CDI Ignition

You've got the fuel, now upgrade the spark with our Go Spark Capacitive Discharge Ignition! The all new CDI delivers high powered sparks from idle to top rpm to improve the combustion even and power output of your engine.

### Old Skool X FiTech Collab

#### Shirt

Old Skool Clothing Co. and FiTech Fuel Injection collaboration shirts! Wear this custom shirt to your favorite car show or when wrenching on your hot rod!

#### FiTech Banner

The perfect addition to any shop or garage, this fabric banner is ready to mount!
