GO **PARK**

NEW PRODUCT RELEASE: **Go Spark Advanced CDI**

Introducing the FiTech Go Spark Advanced CDI, PN 91001. This cutting-edge product is designed to take your engine's performance to the next level, offering powerful spark energy and unparalleled control over your ignition system.

Key Features:

1. **Adjustable Spark Energy Output:** The Go-Spark Advanced CDI gives you the flexibility to fine-tune your spark energy output. Whether you're cruising the streets or tearing up the strip, you can choose between 275mJ for everyday driving or a staggering 585mJ for those heart-pounding moments when you need maximum power.
2. **Rev Limiter Settings:** Our CDI module offers customizable rev limiter settings to suit your specific needs. With options for Burnout, Launch, and Max Engine Over-Rev Protection, you can ensure your engine operates at its peak performance while maintaining safety.
3. **Adjustable Start Retard:** Cranking your engine has never been easier. The adjustable Start Retard feature allows for smooth and effortless engine startup, reducing the load on your starter and prolonging its lifespan.
4. **Single Nitrous/Step Retard Input:** For those who seek the thrill of Nitrous/Oxide system use, our CDI module provides a single Nitrous/Step Retard input, ensuring safe and reliable performance enhancements when you need them most.
5. **Precise Timing Control:** The Go-Spark Advanced CDI is digitally controlled, providing you with precise timing control. Achieve the perfect ignition timing for your engine, optimizing power and efficiency.
6. **Live RPM and Battery Voltage Display:** Stay informed with the built-in LED display that shows live RPM or battery voltage. Adjustments are a breeze thanks to user-friendly buttons, putting you in complete control of your ignition system.

We know the FiTech Go Spark Advanced CDI, PN 91001, is a game-changer for automotive enthusiasts, racers, and anyone who demands exceptional performance from their vehicle. With its advanced features and customizable settings, this CDI module empowers you to unleash the full potential of your engine.
