

# **NEW PRODUCT RELEASE:** **Go Spark Ceramic Spark Plug Wire Kit**

FiTech Ignites Automotive Enthusiasts with New Line of Go Spark Ceramic Spark Plug Wire Kits

FiTech, a pioneer in automotive performance solutions, is thrilled to introduce its latest innovation – the FiTech Go Spark Ceramic Spark Plug Wire Kits for Chevy/GM applications. Designed to elevate engine performance and provide exceptional RFI/EMI suppression, these premium spark plug wire kits are a game-changer for hot rodders and automotive enthusiasts.

FiTech Go Spark Ceramic Spark Plug Wire Kits offer a versatile range of options to suit your specific needs, whether you require custom-fit wires or pre-made sets. These kits are meticulously crafted to deliver optimal energy delivery and ensure peak performance for your hot rod or custom high-performance engine.

Each FiTech Ceramic Spark Plug wire set is made from 8mm low resistance/high noise suppression Ferro-Spiral core ultra-high temperature double silicone rated at 600+ degrees F, is built using stainless steel spark plug terminals and ceramic spark plug boots that are capable of withstanding up to 2,000 degrees F making them ideal for applications with close tolerance headers and any other applications where boot failure is an issue.

With the wide variety of exhaust header combinations, FiTech provides additional unterminated wires to provide fitment options. Go Spark Ceramic Spark Plug wire kits come equipped with 8 spark plug wires, two additional unterminated wires, crimp tool, wire separators, and numbered wire labels.

All FiTech Go Spark Ceramic Spark Plug Wire Kits are covered under FiTech's 3-year limited warranty, ensuring the highest quality and performance for your hot rod or high-performance vehicle.

Elevate your engine's performance and reduce ignition woes with FiTech's Go Spark Ceramic Spark Plug Wire Kits. Discover the perfect solution for your hot rod today!
